To our valued Clients, Investors and Prospective Customers

We are proud of our association with so many outstanding executives, their firms, engineers, and quality assurance individuals. We are even prouder that these firms have entrusted DAVECO to provide them with vital contract services.

When we established DAVECO in 1986, we developed a focused philosophy of service to clients. We believe that your success is our success and that consistent delivery of high level of client service plays a significant role in any successful, long-term relationship.

We take this commitment to service seriously. We have made significant investments in people, technology, and support services. Our staff are selected and trained to meet and exceed your expectations, consistently. As service entrepreneurs, we are prepared, quite simply, to do more to ensure that the entire operational and financial strengths of DAVECO INTERNATIONAL are behind everything we do for you.

Sincerely,
DAVECO INTERNATIONAL

David Tuccio
